Curriculum Vitae

Personal Details

Date of birth February 15, 1971
Place of birth Gioia del Colle, Bari, Italy
Citizenship Italian

Academic Position

07/2015–today Associate Professor of Mathematical Analysis, Politecnico di Bari, Italy
10/2002–06/2015 Ricercatore Universitario of Mathematical Analysis, Politecnico di Bari, Italy
30/12/2013 Italian National Scientific Qualification as associate professor

Education

03/2000–10/2002 Dottorato di ricerca (PhD) in Mathematics, University of Florence, Italy.
Ph.D. thesis: “Global Properties of the Relativistic Lorentz Force Equation”.
Advisor: Prof. Antonio Masiello (Politecnico di Bari).
Date of defence of the PhD thesis: 30.09.2003.
10/1993–03/1999 Laurea in Mathematics (BS+MS), Università degli Studi di Bari, Italy
1985–1990 Liceo Scientifico Statale “R. Canudo”, Gioia del Colle, Italy

Teaching Assignments

2016	Advanced Calculus Calculus
2015	Advanced Calculus
2014	Calculus
2009–2013	Advanced Calculus
2008–2009	Calculus
2007	Calculus Ordinary Differential Equations (graduate course)
2005–2007	Calculus Differential Equations in Mathematical Physics (graduate course)
2002–2004	Calculus

Supervision of PhD Students

2013–2016	G. Stanciarone, PhD thesis: “Finsler spacetimes with a Killing vector field”, University of Bari, Italy.
-----------	--

Memberships	GNAMPA (Italian National Group for Mathematical Analysis, Probability and their Applications) UMI (Italian Mathematical Society)
--------------------	---

Grants

03/2016–03/2017	Principal investigator of the INdAM–GNAMPA Project 2016 “Finslerian type structures and Killing vector fields”.
01/2014–12/2014	Participation to the project supported by the Ministry of Science and Innovation of Spain “Semi-Riemannian Geometry and Variational Problems in Mathematical Physics”; head of the project Prof. M. Sánchez (University of Granada, Spain).
12/2013	GNAMPA financial support for participation to Meeting, School and Workshop.

06/2013	GNAMPA financial support for participation to Meeting, School and Workshop.
2013	"Finsler spacetimes", FRA2011, Politecnico di Bari, Italy.
2012	Participation to the project INdAM–GNAMPA Project 2012 "Analisi Geometric sulle Varietà di Lorentz ed Applicazioni alla Relatività Generale"; head of the project Prof. A. Masiello (Politecnico di Bari, Italy).
2011	Participation to the INdAM–GNAMPA Project 2011 "Analisi Geometric sulle Varietà di Lorentz ed Applicazioni alla Relatività Generale"; head of the project Prof. A. Masiello (Politecnico di Bari, Italy).
2010	Participation to the project Azione Integrata Italia–Spagna 2009 "Metodi Variazionali e Topologici in Analisi Nonlineare e Geometria con Applicazioni"; coordinators: Prof. G. Cerami (Politecnico di Bari, Italy), Prof. M. Sanchez (University of Granada, Spain).
10/2011–10/2013	Participation to the PRIN 2009 "Variational and topological methods in the study of nonlinear phenomena"; head of the project Prof. V. Benci (University of Pisa, Italy).
09/2008–09/2010	Participation to the PRIN 2007 "Variational and topological methods in the study of nonlinear phenomena"; head of the project Prof. V. Benci (University of Pisa, Italy).
01/2006–01/2008	Participation to the PRIN 2005 "Variational and topological methods in the study of nonlinear phenomena"; head of the project Prof. V. Benci (University of Pisa, Italy).
11/2003–11/2005	Participation to the PRIN 2003 "Variational and topological methods in the study of nonlinear phenomena"; head of the project Prof. V. Benci (University of Pisa, Italy).
03/2000–10/2002	PhD grant, University of Florence, Italy.

Publications

Papers	E. Caponio, G. Stanciarone "Standard static Finsler spacetimes", <i>International Journal of Geometric Methods in Modern Physics</i> , 13, 1650040 (2016) [25 pages].

Invited Talks

“Some applications of Finsler geometry to topological lensing” one-hour talk at *Symposium on Gravity and Light*, Kavli Institute for the Physics and mathematics of the Universe, Todai Institutes for Advanced Study, The University of Tokyo, September 30 – October 3, 2013, Kashiwa, Japan.

“Stationary-to-Randers correspondence and convexity” one-hour talk at *VI International Meeting in Lorentzian Geometry – Gelogra 2011*, September 6–9, 2011, Granada, Spain.

“On the Morse Theorem about infinitely many geodesics between two points”, one-hour talk at the conference *Geometry and Relativity Day*, April 13, 2011, Malaga, Spain.

“The index of a geodesics in a Randers space and some remarks about Morse theory on Finsler manifolds”, main talk at the *Workshop on Finsler Geometry and its Applications*, May 24–29, 2009, Debrecen, Hungary.

“Some results about causality in conformally stationary spacetimes via Finsler Geometry”, main talk, *Variational and Topological Methods in Nonlinear Phenomena*, May 1–5, 2008, Otranto, Italy.

- Mini-courses** “Finsler structures and spacetimes”, mini-course at the School of Mathematical Sciences, Beijing Normal University, September 8th, 15th, 18th, 23th 2015, Beijing, China.
- “Morse theory for the energy factional of a Finsler metric” mini-course at Institute of Mathematics and Statistics of the University of São Paulo from 30 July to 1st August 2013, São Paulo, Brazil.
- “Finsler geometry: a selection of introductory topics”, two seminars for the PhD lectures *Elements of Calculus of Variations with Applications to the Study of Geodesics* at the Mathematics Department of the Università degli Studi di Bari, March 25 and 27, 2013, Bari, Italy.
- Seminars** “Variations on the theme ‘Finsler manifold’ ”, “*Colloqui Matematici*” seminars, Mathematics Department of the Università degli Studi di Bari, October 22, 2014, Bari, Italy.
- “On the Zermelo navigation problem with a strong wind” “*P(n) Seminars*” of the Mathematics Department of the “Sapienza” University of Rome, January 30, 2014, Rome, Italy.
- “Stationary spacetimes and the Fermat principle”, Mathematics Department of the Università degli Studi di Bari, December 12, 2010, Bari, Italy.
- “Critical groups of the action factional of a Lagrangian faction”, “*Lorentz*” seminar of the Department of Algebra, Geometry and Topology of the University of Málaga, November 24, 2010, Málaga, Spain.
- “Morse theory of causal geodesics in a stationary spacetime via Morse theory of geodesics of a Randers metric”, *Geometry and Topology seminar* of the Department of Geometry and Topology of the University of Granada, September 23, 2008, Granada, Spain.
- “Interactions between Randers metrics and some variational and causal issues concerning conformally stationary spacetimes”, “*Rey Pastor*” seminar of the Mathematics Department of the University

of Murcia, January 24, 2008, Murcia, Spain.

“Risultati di esistenza e di molteplicità per le soluzioni di tipo tempo dell’equazione di Lorentz in Relatività Generale”, Mathematics and Information Technology Department of the University of Camerino, November 21, 2001, Camerino, Italy.

Contributed talks

“Some convexity properties of Finsler and wind Finsler manifolds” *New Methods in Finsler Geometry*, July 5– 9, 2016, Leipzig, Germany.

“Causality in static Finsler spacetimes”, *1st SCORE@POLIBA Workshop*, December 03–05, 2014, Bari, Italy.

“Some remarks about the generalized Morse Lemma for non- C^2 functionals, *International Meeting on Differential Geometry*, November 15–17, 2010, Córdoba, Spain.

“On the global hyperbolicity of a conformally stationary spacetime”, *XVIII Congresso UMI*, September 24–29, 2007, Bari, Italy.

“Completeness of non-reversible Finsler metrics and geodesics in standard stationary spacetimes”, *IV International Meeting on Lorentzian Geometry*, February 5–8, 2007, Santiago de Compostela, Spain.

“Null geodesics for Kaluza-Klein metrics and world-lines of charged particles”, *II International Meeting of Lorentzian Geometry*, Murcia, Spain, November 12–14, 2003.

“An Avez-Seifert type result for the Lorentz force equation”, main talk at the *IV Turin Fortnight on Nonlinear Analysis*, October 1–3, 2003, Turin, Italy.

“Soluzioni di tipo tempo per l’equazione della forza di Lorentz con campi dipendenti dal tempo”, *XVII UMI Congress*, September 8–13, 2003, Milan, Italy.

“Trajectories of charged particles in the Reissner-Nordström spacetime”, *XV SIGRAV Conference on General Relativity and Gravitational Physics*, September 9–12, 2002, Villa Mondragone, Monte Porzio Catone, Rome, Italy.

Schools and Visiting Periods

September 1st–30th, 2015, visiting professor at the School of Mathematical Sciences, Beijing Normal University, Beijing, China.

July 22th–August 4th, 2013, visiting researcher at the Institute of Mathematics and Statistics of the University of São Paulo, Brazil.

March 6–12, 2011, visiting researcher at the Mathematics Department of the University of Murcia, Spain.

November 18–27, 2010, visiting researcher at the Geometry and Topology Department of the University of Granada, Spain.

September 22–27, 2008, visiting researcher at the Geometry and Topology Department of the University of Granada, Spain.

January 20–25, 2008, visiting researcher at the Mathematics Department of the University of Murcia, Spain.

“School on Lorentzian geometry” held at Santiago de Compostela, Spain, February 5–8, 2007.

“Two weeks on Global Analysis” held at Centro di Ricerca Matematica Ennio De Giorgi, Pisa, Italy, February 21–25, 2005.

“Villa Mondragone International School of Gravitation and Cosmology”, held in Villa Mondragone, University of Rome “Tor Vergata”, Rome, Italy, September 6–10, 2002.

“Nonlinear Analysis and Applications to Physical Sciences”, school organized by the Italian research group “Variational and Topological Methods in the Study of Nonlinear Phenomena” at San Mommè, Pistoia, Italy, May 2–8, 2002.

“Summer School of Mathematics”, organized by SMI (Mathematical Inter-university School) at Perugia, Italy, 25/07–27/08 1999.

Other Academic Activities

Reviewer for the Mathematical Review of the AMS

Member of the organizing committee of the workshop *V International Meeting on Lorentzian Geometry*, Martina Franca, Taranto, Italy, July 8–11, 2009.

Member of the scientific committee of the conference *VII International Meeting on Lorentzian Geometry*, 22–26 July, 2013, São Paulo, Brazil, 2013.

Member of the committee for the admission to the 2007 PhD program of the Università degli Studi di Bari.

Member of the PhD committee of Jonatan Herrera, April 14, 2011, University of Malaga, Spain.

2013–2014	Member of the working group for the admission test (TAI) at the Politecnico di Bari.
2014–2016	Member of the working group of a project about promotion, tutoring and placement for students of Politecnico di Bari.
09/2014–today	Member of the committee for the revision of the statute of the Politecnico di Bari.
16/12/2014	Member of the committee for the peer tutoring programme, for the Academic Year 2014-15, of the Politecnico di Bari.
12/2015–01/2016	Member of the Politecnico di Bari working group for Erasmus+ Programme International Credit Mobility – KA107 Brazil.
23/03/2016	Member of the committee for the peer tutoring programme, for the Academic Year 2015-16, of the Politecnico di Bari.

Other Qualifications

Italian national teaching qualification for Mathematics and Physics, MIUR 1999.

Bari, October 10, 2016
